## Human-First Blockchain

by Mark Stair
with seeds, tipit, & eos teams

covid-19: NOT prepared for global challenges

Global Challenges: Now & Future

- Biological: pandemics
- Ecological: climate change
- Nuclear: Intelligent Stupidity = Insane
- Technological: Artificial Intelligence
- Space: Asteroid

Humanity Successes

- Globally united for covid
- CFC elimination to save Ozone
- Whaling controls avoided extinction
- Democracy
- Human Rights
- Lowest violent deaths in human history
- Global communication
- Lowest extreme poverty
- Highest life expectancy
- Population flattening
- Space travel

covid

command → SUBJECT
back to "normal" → CONSUMER
new story #CitizenShift → CITIZEN

SUBJECT	CONSUMER	CITIZEN
DEPENDENT	INDEPENDENT	INTERDEPENDENT
TO	FOR	WITH
RELIGIOUS	MATERIAL	SPIRITUAL
DUTY	RIGHTS	PURPOSE
OBEY	DEMAND	PARTICIPATE
RECEIVE	CHOOSE	CREATE
COMMAND	SERVE	FACILITATE
PRINT	ANALOGUE	DIGITAL
HIERARCHY	BUREAUCRACY	NETWORK
SUBJECTIVE	OBJECTIVE	DELIBERATIVE

"era of the Citizen: a time when people, dissatisfied with being mere Consumers, increasingly yearn for agency and control over what matters to them, and where authentic participation based on agency and purpose holds the key to a brighter future."

"Trusted" Global System...is needed
...the answer is so simple, not easy, & no new technology…

Bring Heart into EOSio

Humans benefiting & regenerating Earth & Humanity
….using eosio, seeds, and more

Human-First Blockchain with eosio + seeds

human

reputation

Humans only
tipit Proof of Human
seeds
hypha.earth
voice.com
social id patent

Visitor => Citizen
(resident)

Human Contributions

communities: local,
global, governance

organizations, dapps, tokens

SEEDS

Economic Model

Regenerate Money

A payment platform and financial ecosystem to empower humanity and heal our planet.

Legend:
- Seeds Increasing Circulating Supply
- Seeds Decreasing Circulating Supply
- Seeds Removed From Circulation
- $/BTC/€/EOS/etc In-Out of Economy
- Information Feedback

Replace burned Seeds

4.1 Burned Seeds when members use paid services. (Permanently removing seeds from circulation)

Apps, DApps & Orgs

1 Seed Creation to meet any new demand for Seeds and to replace Burned Seeds.

2 Harvest Seed Distribution

All Accounts By Contribution Score — 30%

Bioregional Coops For local regeneration and support. — 20%

Orgs / Apps By Contribution Score — 20%

Global Co-op — 30%
- to Restore and Beautify our Planet
- Network Maintenance and Evolution
- TLOS Token Staking
- Global Expansion and Support

3 Circulating supply of Seeds

2.1/4.3 Seed Bank & Exchanges Decentralized Monetary Policy: Gateways, market-makers, reserve funds.

1.1 Value Into Ecosystem by new members joining and current members increasing use.

4.2 Planted Seeds for increasing contribution scores and bandwidth allotments.

5 Exchange Out with other financial systems.

Grow new Seeds to replace average planted Seeds

Reputation Building

SEEDS

Distribution models trend towards centralization when solitary metrics determine rewards and power. PoS and PoW really only recognize one value - financial commitment. Reputation is a means of valuing the various other contributions humans make in creating a healthy society.

There are several ways that Citizens can gain and lose reputation.

Digital Reputation

Community
- Human Verification
- Provide Identification
- Refer New Citizens

Trust
- Receive Positive Reviews
- Receive Positive Ratings
- Giving Reviews on App Purchases
- Winning Arbitration Disputes

Governance
- Majority Arbitrator
- Voting
- Positive Feedback on Proposals
- Overseeing Successful Proposals

Losing Rep
- Negative Reviews
- Negative Ratings
- Losing Arbitration Disputes
- Failing to complete a funded proposal

Better for community

- Receive rewards and grants for regenerating the environment
- Access interest-free loans for local projects
- Collectively buy, own and share assets
- Allocate money to fund community proposals
- Reduce inequality with a more equitable distribution of value

- Local Communities to Bioregions
- Global issues: covid, environmental, technological disruption (AI), nuclear
- Governance & improvements: DAO & DHO
- Model on SEEDS & sociocracy/circles of expertise and interest

Citizens

Better for you

- Help heal our planet with every purchase
- Pay no transaction fees
- Earn an income for participating
- Have a direct voice in governance
- Maintain membership by investing time and money, not paying fees
- Co-create a new society for yourself and your children

- Free human accounts
- Agree to Constitution: Protect Life, Liberty and Property
- Integrate with Voice.com, SEEDS, B1 social id patent, others
- One Human, One Vote Governance
- Named or Pseudonym with reputation & contribution scoring
- Global Identity & "Passport"

Better for organizations

- Earn revenue for regenerative behaviours
- Join a global alliance and thrive together
- Increase brand visibility and reach
- Pay no fees to accept payments
- Access new income streams
- Connect with incentivized users/buyers

- Human generated Organization accounts
- Block Producers
- Dapp's
- Any corporate structure: Profit, non-profit, co-op, franchise, judicial, political, spiritual, etc
- Add KYC/AML as needed

Parallel "Zipper" Governance => interconnected

New:

Global
GHO/DHO

Bioregion
BHO

Local Human
Org LHO

Existing:

UN/WHO

Nation

State

County

City/Town

Interconnect with Local to Global organizations: Better currency, tracking, voting, taxes, identification

GHO/DHO: Global, Decentralized Human Organizations

LHO: Local Human Organization, localized

Fund candidates to Integrate with existing politics & government*

Taxes on Transactions at current Local Jurisdiction Tax Rates*

Costa Rica: First nation to "Zipper"?

subject to citizen agreement

Proof of Human Smart Contract

- Issue "Human" non-transferable token to proven humans
  - https://github.com/tipitio/EOS-Covid-Hackathon
  - Idea:
    - User buys Human token for $1.00 with CC into their eosio account
    - System prevents same user from getting another Human token
    - Human token is non-transferrable
    - Other systems can confirm existence of Human token
    - One human one vote scenarios
- Future ideas
  - Issue multiple tokens for authorized organizations that verify real humans in other ways
 - Use NFT per human as a unique ID NFT

Timeline

2020

IHC: Initial Human Contributions

Formation of Constitution, User Agreement, Conduct, Branding, Development, BP's, Partners

202X

Launch

Go Live with Constitution, Governance and new eosio Blockchain

20XX

Local & Global

Regenerative Solutions for Local Communities and Global Issues. Continuous improvement.

Forks for other approaches

2XXX

Terra Sapiens

Humans Regenerating & Protecting Earth. Shaping Our Planet's Future

IPO =>	ICO =>	IHC
stocks for money	tokens for money	tokens for contributions

Next Steps

Awareness:

    Form initial team from all continents
    Block.One contributions?

Governance & Constitution creation thru IHC: Initial Human Contributions

Launch Chain

Human migration of Voice.com, Seeds

Develop B1 Social ID patent on platform

Human-First Blockchain

human heart holistic inspired
with eosio & seeds
